PROFESSIONAL SUMMARY

Software Developer Lead with 8+ years of experience architecting scalable web systems and building data-driven product features. Currently leading technical delivery and core development decisions at CloudFountain Inc., driving full stack development and system design across customer-facing and internal platforms.

Strong foundation in full-stack web development, with hands-on experience in integrating machine learning workflows into production systems.

EXPERIENCE

CloudFountain Inc.

Lead Software Developer | 2022 - PRESENT

- Architected and deployed lead scoring and approval prediction models using AWS SageMaker to support lead prioritisation and placement rate decisions.
- Built a centralized reporting and analytics platform integrating CRM, Google Analytics, and internal databases, delivering near real-time dashboards for traffic, lead flow, conversion, and sales performance.
- Designed and developed REST APIs and backend services; integrated third-party platforms including Auth0, DocuSign, Stripe, CRM systems, and marketing tools.
- Monitored system performance and ensured high availability and stability.
- Led core development decisions and oversaw technical delivery.

Sr. Software Developer | 2021 - 2022

- Developed and maintained applications using React JS, ExpressJS, NodeJS, and AWS cloud services.
- Designed and constructed REST APIs, integrated third-party APIs and SaaS applications like Auth0, DocuSign, and Stripe.
- Implemented unit and automation testing using Selenium, Jest, and Cypress.
- Implemented frontend interfaces based on UX wireframes created in Figma and InVision, ensuring responsive and production-ready delivery.

VANtage Systech Pvt. Ltd. (RouteRabbit Inc.)

Software Engineer | 2020 - 2021

- Engineered both frontend and backend solutions using React JS and NodeJS; gained foundational experience with AngularJS, MongoDB, and Docker.
- Created the data reporting solution using Google Data Studio by integrating data from different sources like- databases, Google Sheets and Analytics.
- Automated website testing and wrote automation scripts in AWS Lambda, and CRM platforms like ActiveCampaign for managing customer deals and email campaigns.

Aspire Techsoft Pvt. Ltd.

Software Developer | 2018 - 2020

- Engineered a dynamic e-learning web platform from scratch using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL, based on business needs.
- Developed a custom CRM and reporting system to manage company services.
- Developed custom Google Chrome plugins and Android applications to automate business processes. Also worked with Google Apps Script to add custom features to Google Docs.

EDUCATION

2015 - 2020 | Pune University

Bachelor of Engineering (CSE)

International Institute of Information Technology, Pune, Maharashtra, India.

2012 - 2015 | MSBTE Mumbai

Diploma in Computer Engineering

Shivaji Polytechnic College Sangola, Solapur, Maharashtra, India.

SKILLS

Machine Learning & AI:

- SageMaker Studio: Canvas, Data Wrangler, JupyterLab, AutoML
- DataRobot
- Retrieval-Augmented Generation (RAG)
- Vector Databases: FAISS, Pinecone
- LangChain & OpenAI APIs
- Python: Pandas, NumPy, Matplotlib

Frontend Technologies:

HTML, CSS, JavaScript, React JS, Redux, AngularJS

Backend Technologies:

Node JS, Express JS, Java, Python

Cloud & Deployment:

EC2, S3, ELB, SNS, Lambda, CodePipeline, CloudWatch, API Gateway, Docker

Databases:

DynamoDB, AWS RDS, MongoDB
